ARE WE LOSING OUR GAME BIRDS?

A very frequent remark of hunters on Monday was the apparent lessening number of ducks that were to be seen. Several of the old hunters in the town could recall the days not so many years ago when over a hundred ducks could be seen where today there is only one. Our experience in this regard, after a residence in Alberta for over twenty five years, bears this fact out. There are certainly fewer ducks than there were even three or four years ago. Are we going to lose our game birds entirely? Without a doubt that ten years from now a wild duck will be a curiosity in this district unless some preventive measures are taken to stop their destruction. We believe that a great loss of wild fowl takes place during the breeding season, when indiscriminate persons rob the nests of eggs and kill the mothers. Others are unsportsmanlike enough to bag hundreds of young ones "flappers."

In Saskatchewan the season does not open until October 1st, and it would probably be better if the opening was made in Alberta on September 15, instead of the 1st.

Put in your coal supply early. While the mines are reported to be all working and prospects for plenty of fuel this fall, the grain movement may cause a shortage of rolling stock and the more coal that is placed now, the more cars will be available for grain.

"Wanted: someone to furnish a solution of the high cost of living?" So far everything from "canning" the government to reverting back to the primitive methods of Adam and Eve, has been suggested.

Despite the fact that relief was promised some time ago, sugar is still very scarce in town. Practically no canning of fruit has been done.

Edmonton is beginning to show the ear marks of a real city. Policemen and other peaceful citizens are bowled over by thugs at will, bootleggers and moonshine stills furnish variety for raiders, ordinary robberies are so common as not to attract more than casual notice.

Speaking about tax rates, Fort Saskatchewan has a rate this year of 61 mills on the dollar. This town is a much older place Wainwright, so we have still time ahead to be really paying a respectable tax each year.

The frost of Monday night put a crimp in expectations of harvesting the very late grain. However, we have been lucky in having the frost delayed as long as it was.

Hog prices dropped in Chicago last week to \$15, the biggest slump for several years. Is this decline a result of the government's efforts in reducing the high cost of living.

Taxes are coming into the town treasury at a good rate now, and the town is getting on a better financial basis. With a collection of a good proportion of the taxes, which are higher this year, and the authorization of the issue of bonds, the town fathers will be able to leave the town in a good condition at the end of their term.

Premier Botha of South Africa is dead. His great stand and loyalty to the British empire during the crisis in the opening year of the war, when he led his forces against the insurgents and held South Africa under control, will be well remembered. Premier Botha will be ranked as one of the foremost men in political affairs in the history of that new British dominion.

Good roads at last. A second government road outfit has started work this week on the new highway. They are at work near T. Daniels' place.

Teach the Children to Save

Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable women.

The easiest way to teach children to save, is to start a Savings Account for each child (\$1.00 each is sufficient). After a child has saved another dollar to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and self-denial it represents.

DOUBLE TRAGEDY AT

CHICAGO RAILWAY YARDS

Chicago, Sept. 1.—"I'll stay with you Mary," were the words William F. Timmer, a cashier in the offices of the Baltimore and Ohio railroad here uttered, closed his eyes, embraced his wife

whose foot was caught in a railroad frog and was killed with her when a limited train on the Chicago and Northwestern railroad crashed into them last Tuesday.

John Miller, a flagman, in attempting to rescue the couple lost his leg

and sustained a fracture of the right arm. Three little children are orphans because of the fateful decision of Timmer to die with his wife.

MILLERS ADVANCE PRICE OF SHORTS BY 10 TON

Winnipeg, Aug. 25.—Millers today advanced the price of shorts \$4 per ton. This increase was made after a meeting of millers with the Canadian wheat board. Officials of the board said that in view of the high prices of bran and shorts in the United States and that the present price of wheat to the mill has been fixed at \$2.25 per bushel, the board considered the advance reasonable under the circumstances.

WAR WIDOWS CHECKS WILL SHOW ADVANCE

Winnipeg, Aug. 27.—Advance of 20 per cent to war widows and privates will go into effect on September 1st and will show on checks for September which will be received at the end of the month or early in October, a member of the local pension board office recently stated. Widows present pension allowance is \$40 and the increase will bring it to \$48.

MINERS' STRIKE IN YORKSHIRE COSTLY AFFAIR

London.—The Yorkshire miners strike has been an extensive bit of amusement for the miners and well as for the people not directly connected with the dispute. The generally accepted figures are:

Damages to mines \$10,000,000; coal lost to industry \$10,000,000; losses to kindred industries \$10,000,000; the strike fund of the miners amounting to \$1,000,000 was exhausted with the end of the fourth week's strike benefits. This fund it was stated had taken some twenty-five years to accumulate. The coal government board it is stated, put out a lot of red tape and with the cooperation of the local relief authorities averted distress throughout the district. In some cases by a week was allowed every married woman with \$1.25 additional for every child. This money with the strike benefit averted the authorities believe, a great deal of suffering.

MCKENZIE KING LIKELY RUN IN PRINCE, P. E. I.

Charlottetown P.E.I. Hon. W. L. McKenzie King will probably be the Liberal candidate for Prince county in the bye election to be held October 27th. It is understood that he will accept a unanimous nomination. A convention is to be held at Summerside this week.

Mr. King was offered the nomination by Liberal delegates from Prince County at the Ottawa convention just after he was elected Liberal leader. In Prince at the last general election, the late Captain Joseph Road Liberal had a majority of 324 over his nephew A. A. Lafarge. The latter will be King's opponent unless he is appointed lieutenant governor, his name being prominently mentioned in connection with position.

SIX CHILDREN BURN TO DEATH NEAR REGINA

Regina, Sept. 1.—While their fathers were away at Jansen haying and their mothers were shopping at Frenchville six children of two families living together in a house near Drigcoll lake post office were burned to death on Friday evening. Neighbors who saw the dwelling in flames rushed to the spot and found no living thing around and the house absolutely destroyed.

On the return of the mothers the heat was too intense to search the ruins and the bodies were in the cellar, where the structure was carried off its collages. The story of the tragedy cannot be told by reason of the deaths of the children.

Two of the victims were of the family of Councillor Colin Monroe and four were those of Roy McKenzie the eldest of all being but nine years of age. The remains of but four were recognizable when found. Coroner Clark impaled a jury and the verdict rendered was accidental death.

WIRELESS PHONE A NEW INVENTION OF ELECTRICITY

New York, Aug. 25.—The successful application of the alternating current to wireless telephony which will make it possible to many persons to "ping" a pony wireless panel into an ordinary lamp socket and talk through space from house to house or city to city, was announced today by Dr. Lee De Forest.

OREW OF BREMEN NEVER CAPTURED STATES BRITAIN

London: There is no truth in the report that the crew of the German commercial submarine Bremen was captured during the war, and returned recently to Germany. It was added that the British admiralty has no knowledge concerning the fate of the Bremen but that it is assumed the submarine foundered while endeavoring to cross the Atlantic.

ADVANCE CONTINUES

The London war office announced that on the western front of Gen. Denikine the anti-Bolshevik leader in southern Russia, the advance is continuing with great rapidity along the entire line.

SERVICE FIRST

You will find us always at your service.

It has been and is now our aim to make this store a good place for you to buy your tobacco, not only in the class of tobacco carried and the selling of the same at reasonable price, but also the service which pertains to the handling of the goods.

OUR STOCK IS LARGE

By having a big stock we are in a position satisfy almost any customer and by keeping clear of cheap goods we can recommend to you any articles which you may purchase from us.

OUR PRICES ARE REASONABLE

Many times have people from other districts told us that our prices are lower than in their home town. This is largely due to the fact that when prices were soaring we put in a large stock and at times were selling some lines of goods at lower than Wholesale prices.
